- EOS Kiss X5/EOS REBEL T3i /EOS 600D
- EOS Kiss X50/EOS REBEL T3 /EOS 1100D

Release 6.0

Release Date: 11/16/2011

Note 1: Record filters have been enhanced; any stored filters you have created will need to be updated.

Note 2: Workstation Settings and Asset Group settings have changed; review your settings after upgrade.

Note 3: Shared Company Files (.jlt) are no longer supported; you must use Jolly Server when sharing asset data between multiple workstations

Features Added:

- Asset depreciation functionality
- RFID label support
- QR Code support

Enhancements / Bug Fixes:

- Replaced Company Server with Jolly Server, a more robust implementation
- Improved locking to protect shared resources
- Simplified Workstation and Asset Group Settings
- Multiple workstation printer support
- Added Task Configuration button to each task
- Auto-format label text
- Support for additional languages
- Minor bug fixes and enhancements

Release 5.1.0

Release Date: 03/16/2011

Features Added:

- Link Asset Track user accounts to Active Directory user accounts
- Improved Oracle support

<http://www.jollytech.com>

Enhancements / Bug Fixes:

- Support for a 15 digit UID default value
- Improved support for non-western languages and fonts including Arabic, Cyrillic, Greek, Hebrew and Turkish
- Display a results summary after record import
- Minor bug fixes and enhancements

Release 5.0.2

Release Date: 10/06/2010

Features Added:

- None

Enhancements / Bug Fixes:

- Support for specifying an Active Directory / LDAP Borrower Lookup filter
- Automatically detect Active Directory / LDAP Borrower Lookup server and directory
- Minor bug fixes and enhancements

Release 5.0 / 5.0.1

Release Date: 07/26/2010

The version 5.0 family of products offers new functionality that version 4.0 clients cannot utilize so if you have multiple installations that share data, you must upgrade each installation.

Features Added:

- Significantly improved database performance when connecting to large and/or remote databases
- Configure separate printers for printing labels and reports
- New Record Center record filter option
- Company Database can be installed to user's existing MS SQL Server instance; user can then manage the database and access log data
- Support for serial-port based barcode scanners
- Opticon mobile barcode scanner integration
- Support for manual update fields with batch check in / out
- Support for Microsoft Access 2007
- On screen keyboard and other kiosk improvements
- Tutorial demo links added to Help menu

Features Enhanced / Modified / Bug Fixes:

- *** The design preview shown in the Main Menu is now a static image that can be set by the user
- *** User Fields have been replaced with Manual Update Fields that allow users to update record values via a form during Check In / Out
